COUNCIL MEETING

A meeting of the Village Council was held at the offices of Flood, Whicher & Elves on Monday evening last, October 25th, present, Councillors Stack, Dewie, Secy.-Treas. Flood and Reeve Butchart. Minutes of the preceding meeting were read and adopted, after which the following business was disposed of.

The curfew by-law was discussed at some length and it was finally decided that, beginning November 1st, the curfew will ring at 8:30 p.m., for the winter months. Provision, however, will be made for allowing the children to skate.

It was also decided that an additional street light be placed at the corner of Apollo Street and Prairie Avenue.

The question of bounds running at large about the streets was discussed and Mr. Watt was instructed to take proceedings in every case.

Mr. Watt brought to the notice of the council that refuse was being thrown out indiscriminately and as this is a menace to public health the council instructed him to proceed against the offenders under the health by law after due notice had been given.

The finding of a suitable location for the German trench mortar which was recently donated to the town was also discussed and it was decided to place it on the boulevard outside the fire hall and that a suitable mounting be provided for same.

Meeting adjourned.

BOX SOCIAL

The box-social and dance, which was held at Kirkcaldy last Friday evening, was a huge success. A large crowd and good music made the evening very enjoyable.

It was under the auspices of the Three Hill School District and the proceeds, \$79.00 are to be used in purchasing a set of the Books of Knowledge for the school.

BIG AUCTION SALE

Mr. G. L. Ecker, one of Vulcan's old timers, and who lives near town, has rented his farm and has decided to sell all of his horses, cattle, machinery and household furniture by public auction on Thursday, November 4th, commencing at 11 o'clock. C. C. Rebbe is to be the auctioneer and as George is a firm believer in the liberal use of printer's ink he is advertising very extensively by poster and through the medium of the village bugle, which, he thinks, is bound to bring the crowds to his farm for this great event. Look over his full page advt. on page 3 of this issue, figure out your wants and meet George on the above date when he will be pleased to show you what he has to offer.

ALLOTTED TRENCH MORTAR

The efforts of the Vulcan Community Club in the interests of the town have again received recognition by the securing of a war trophy in honor of the men of town and district who gave up their lives in the fight for the defence of the Empire and as a reminder that Vulcan contributed its quota, both in men, money and kind, and by doing so helped in the victory of the Allies.

Considerable correspondence was indulged in with the department in charge of distribution of the trophies and it was pointed out in substantiation of our claim, that from the town of Vulcan with a population of 800 people, the call of the Empire had been answered by 80 of her men, seven of whom had given up their lives.

The distribution of these trophies to towns all over the country has been going on for some time and it was first thought that Vulcan would be too late to secure one and as a matter of fact we were just in time for when our correspondence was received at Ottawa, two cars were then being loaded for Alberta. In a letter announcing this fact from T. W. Quayle, private secretary to Mr. Sifton, he states that he immediately took the matter up with Dr. Doherty, director of war trophies, and was promised that, although the allocation for Alberta had already been made, Vulcan would not be forgotten and true to his word a trench mortar was forwarded by the shipment then being loaded, for this town.

Dr. Doherty is to be commended for the prompt action he took in the matter and the people of Vulcan are grateful to him for the recognition of services rendered.

The trench mortar, which was cap-

tured by the 2nd Canadian Brigade, 27-9-18, arrived last week and is at present housed in the fire hall, until it is assigned a prominent position in some public place where it will best serve the purpose for which it was secured.

CURLING CLUB MEETING

A meeting of the Vulcan Curling Club was held in the offices of Flood, Whicher & Elves on Thursday evening last, October 21st. A large number of members were present and a great deal of business was transacted.

Clyde Hall occupied the chair and after the minutes of the previous meeting had been read and adopted the following motions were put through.

A report of the executive committee appointed to get estimates in additional sheets of ice was given, the cost ranging from \$900 to \$1200, and after some discussion it was moved by Jack Wolfe, seconded by F. A. Elves, to continue with the present sheets of ice.

Moved by A. G. Spooner, seconded by Torgerson that rocks be sent to Calgary to be ground.—Carried.

Moved by W. A. Rolston, seconded by Roy Walker, that the ladies be allowed the use of ice five afternoons each week.—Carried.

Moved by Jack Wolfe, seconded by A. M. Trail, that Wednesday afternoons be reserved for men. This afternoon being movable at the discretion of the members.—Carried.

Moved by F. M. Anderson, seconded by Jack Wolfe, that the fee for the Ladies' Curling Club be \$1.50 for the season.—Carried.

Moved by E. H. Charters, seconded by Jack Wolfe, that the men's fee be \$15.00.—Carried.

The following skips were then elected: Charters, Spooner, Flood, Hall, Reeves, Torgerson, Grant, Wolfe, Anderson, Jones, Polton and LeBow.

All those who wish to join the club should hand in their names immediately to the secretary, A. E. R. Long.

HEAVY FINES FOR SERIOUS OFFENCES

Dr. Scott, of Bassano, was sentenced to ten days imprisonment last week for supplying cocaine and morphine in large quantities to those who, it was alleged were dope fiends. In one instance it was stated no less than 450 grains of morphine were prescribed, and it was affirmed by the prosecution that the doctor made a regular practice of administering narcotics to those who were addicted to the drug habit. On representation made by citizens of Bassano as to some of the doctor's good points the magistrate rescinded the sentence and inflicted a fine of \$300.

Dr. Fisher, of Medicine Hat, was fined \$200 with costs for prescribing narcotics other than necessary for medicinal purposes.

DINGMAN PLANT DESTROYED

Damage to the extent of \$75,000 was done when fire broke out and destroyed the gasoline absorption plant of the Dingman well, owned by the Imperial Oil Company, two miles south of Black Diamond, at 6:45 on Wednesday morning. While the exact cause of the fire is not known it is thought that it was caused by the explosion of a compressed air pump. The workmen fought the fire with steam and extinguishers but they were of no avail against the gasoline saturated tank. The plant was completely destroyed but the derricks were saved.

Investigation shows more than 75 per cent. of the narcotic drug addicts in the U.S. are boys and girls approximating 16 years of age.

The farmer members of the Manitoba parliament will not oppose the Norris government and will not sit in the house as an opposition party. In view of that, why did they not run as Liberals and save us all this worry?

The preponderance of sentiment in Alberta is against bootlegging and we believe that the majority of our people desire to swat the "Bootlegger," but they could not agree on the form of ballot presented on Monday last with the result that well-meaning people voted "No" and vice versa.

VULCAN NEWS ITEMS

Mr. W. J. Tully, expert of the Singer Sewing Machine Company, Calgary, was in town for several days last week on business.

A dance will be held in the I.O.O.F. Hall, Vulcan, on the evening of November 11th, under the auspices of the Ladies' Curling Club. Supper will be served.

Born—At the Maternity Hospital, Vulcan, on Thursday, October 21st, to Mr. and Mrs. Ezra Cowell, of Reid Hill—a son.

F. W. Shaw had a couple of loads of stocker cattle shipped to Vulcan last week by the U.G.G.

R. R. Hagerman, of Sylvan Lake, was a visitor in Vulcan on Tuesday and Wednesday on business.

Miss Violet Bennett, of Calgary, was in Vulcan over the week-end visiting with her sister, Miss Bennett, of the Bank of Hamilton staff.

Don't forget among the coming events the Ladies' Curling Club dance on the evening of Armistice Day, November 11th.

The auction sale of farm stock and implements belonging to Billy Myers, Reid Hill, was held in Wednesday last and was one of the most successful sales that has been held this year. Everything sold fetched good prices and the farmers in attendance seemed to have an abundance of ready cash. Mr. Myers was very well pleased with the result.

At a meeting of the teachers and officers of the Vulcan Church Sunday School it was decided to form a Young People's Society for the coming winter months. A social evening will be given in the near future when the society will be organized. All young people of Vulcan are invited to join.

Mr. and Mrs. J. C. Cuthbert, of Moose Jaw, Sask., spent several days in Vulcan last week, visiting with friends.

The Ladies' Curling Club has re-organized for the winter and extends a cordial invitation to all who are interested to join. Old members and new comers please consider this a personal invitation, it means you and hand in your name and fee not later than November 1st to either Mrs. C. Hall, or M. Wylie's secretary.

Gregor Thomson, of Seattle, arrived in Vulcan on Friday and is the guest of Mr. and Mrs. J. L. Hehr.

Mr. and Mrs. Butchart and Mr. and Mrs. Gillespie motored to Lethbridge on Sunday last.

Corporal Allen, who has been visiting in the Old Country for the past few months arrived in Vulcan on Tuesday.

Shimp & Rebbe are holding another Combination Sale on Saturday, November 6th, consisting of wagons, farm machinery, furniture, cows, horses, etc. See posters of this sale for further particulars. Further entries solicited.

Mr. and Mrs. Thompson, who have been visiting with Mrs. Thompson's parents Mr. and Mrs. Kehr for some time, returned to Seattle on Wednesday.

We wish to draw the attention of our advertisers to the fact that it is absolutely necessary for them to have their change of ad. copy in by Monday afternoon to ensure inserting the same week. We would be pleased if you would co-operate with us in this important matter.

There will be an auction sale of School Lands held at Okotoks on Monday, November 22, at 10 o'clock a.m.

Vulcan and district was visited on Thursday evening last by a miniature blizzard of about four hours duration. Quite a little snow fell but not as much as was expected and needed, the storm being pretty well spent before it reached here. The cold wave which accompanied it only lasted a few hours and lovely weather has prevailed since.

VULCAN NEWS ITEMS

The next meeting of the Reid Hill Women's Institute will be held at the home of Mrs. Jim Marshall, on Wednesday next, November 3rd.

Have you seen that new line of ready made overcoats that Gillespie's have in?

A pantry sale of home cooking and afternoon tea by ladies of the Catholic Church, will be held at McIntosh's store on Saturday, November 6th.

Don't forget the "Marquerade Ball" in the I. O. C. F. Hall on Friday evening next.

Mr. A. E. R. Long, who has been connected with the Bank of Commerce here for some time, has been transferred to the Iricana branch of the above bank and will leave at the end of the week to assume his new duties.

See special showing this week of Ladies and Misses dresses and skirts at J. Naismith & Co.

Mr. Ross Clark has purchased the farm of L. F. Dawson which is six miles west of Vulcan, for \$95 per acre.

For that latest shape in caps see Gillespie's.

To the people of Vulcan and district falls the honor of having polled the largest rural dry majority on the Referendum in the province on Monday last.

Mr. H. C. Paull, of the Bank of Hamilton staff, has been transferred from Tisdale, Saskatchewan, to Vulcan, and assumed his duties at the local office last week.

The adult choir of the Vulcan Church will practice on Thursday evening next at 8 o'clock in the church. A good attendance is requested.

Don't forget to attend the Masquerade Ball to be held in the I.O.O.F. Hall on Friday evening next, October 29th. Prizes are to be given for the best dressed couple, the most original costume and the most comic costume.

A concert, box social and dance will be held in the Berrywater School on Friday evening, October 29th, commencing at 8 o'clock. Good 3-piece music for dance. Everybody welcome. Ladies bring boxes. Proceeds to be devoted for piano for school.

The E. C. McFall sale of farm stock, machinery and household furniture held on Friday last and conducted by Messrs. Rebbe & Shimp, was fairly well attended considering the cold day. Bidding was brisk and everything sold at good prices.

Mr. and Mrs. Crawford, of Lethbridge, were Vulcan visitors on Sunday last, the guests of Mr. and Mrs. McQueen. Mrs. Crawford, who is one of the soloists of Knox Church choir, gave a solo at the evening service in the Vulcan Church.

The Rev. Dr. McLaughlin, of Toronto, gave a powerful address on the Referendum in the Vulcan Church on Friday evening last. The doctor dealt with all the pros and cons of the question in a masterly manner and held the audience to his subject throughout the evening.

The Opera House was well patronized on Saturday evening last and the picture which was shown, "One of the Finest," featuring Tom Moore, was thoroughly enjoyed by all. The management are securing only the best of pictures to show here and some excellent films are booked for the near future.

Mr. and Mrs. Roy Walker motored to Calgary on Saturday last and remained there for a few days. Roy intends to make a trip over the mountains in an airplane with Capt. Carter before returning.

A large number of members of the Vulcan Women's Institute journeyed to Alton on Thursday afternoon by car to attend a meeting of the Golden Rule Women's Institute. A splendid time was had by all while there, but the storm, which came on in the evening made the homeward journey very uncomfortable and took a lot of the pleasure out of the outing. However, all arrived home safely none the worse for their cold ride.

GROSS INDIFFERENCE

The following editorial appeared in the last issue of the Pincher Creek Echo with reference to the vote on the Municipal Hospital question, which The Times publishes in the hope that our readers will carefully read the same and make an endeavor to study the question from every angle so that when the vote is called they will be in a position to vote in favor of the hospital scheme for High River district.

The result of the voting on the Municipal question can scarcely be said to be other than another black eye for the Pincher Creek community. It was estimated that nearly 4,000 ballots would be required and of this number 801 considered it worth while to answer to a question of so much importance. It was undoubtedly a busy season but it would be ridiculous not to face the fact that we have altogether too many, who prefer to continually grind their own little axes, while, when it comes to a public service, of which they even expect to reap the benefit, they are content to "let George or Mary do it."

The scheme was lost by the lack of 52 votes, and the long-sighted will be thus handicapped with the short-sighted and indifferent people of the community. By long-sighted, we mean, those with a vision, enterprise and initiative, people who are not content to plod along in the same old rut year after year.

There are sick in the community who require care, there are people who are ill constantly coming into the towns and practically besieging admittance into homes where they are not wanted and where their heard money isn't a drop in the bucket towards remuneration for the allowance of outside sickness to disturb the home life, and the wearing out of the mother of the family, who already has enough on her shoulders. Besides there not being in the homes equipment for the proper care.

The fact that we have not yet overcome the circumstances of the past year of drought was undoubtedly taken into consideration, but the condition was just the same for those who voted for, as those who voted against, or for the "Let George do it" ratpayers. The polling shows conclusively the districts, who either ignored the issue or turned it down.

The remaining point to be kept in mind is that "Providence help those who help themselves," and when sickness or accidents occur in these districts, it will be up to the people individually or collectively to look after such cases humanely and with dispatch.

Someone wisely remarks that when you see an idle young man you see a needy old man in the making.

Meat prices in the city of Lethbridge came down from 5 to 10 cents per pound and it is said further reductions are looked for. The price on pork remains the same.

NO DOUBT ABOUT IT

The statement has been frequently made that if there was only a small "yes" majority cast on Monday the Dominion authorities would not accept the decision as final, and they would count it insufficient warrant for the enforcement of the prohibitory regulations. If these people would carefully read the act and the proclamation under which the vote was taken they would find that the proclamation says that on November 3rd the vote will be summed up and "in the event that the vote of the electors of the said province of Alberta shall be in favor of the said prohibition, such prohibition shall go into force on such day and date as shall, by order-in-council under section 106 of 'The Canada Temperance Act,' be declared." A bare majority must accordingly bring the act into force.

BURN CORN INSTEAD OF COAL

Head of the U. S. Farm Bureau Federation says unless the price of bituminous coal takes a sudden drop Iowa farmers will burn a large percentage of this year's corn crop for fuel. Soft coal is \$20 a ton, and costs \$2.50 a ton to deliver. Iowa elevators offer \$15.75 a ton for corn.

DEFENDS THE ROSS RIFLE

In reply to Canon Scott's denunciation of the Ross Rifle at a meeting held recently in Calgary, Hon. Sam Hughes replies that the battle of St. Julien was won by the Ross rifle and not one case of jamming occurred until bad ammunition was issued. He further adds that British warships are armed with Ross rifles including the Prince of Wales' ship, the Renown.

RURAL COMMUNITY LIFE

The Ontario government is doing well in seeking to encourage the establishment of community halls and athletic fields in the rural districts of the province. The government is now directing attention, by means of bulletins, to the legislation passed last session, under which the government contributes 25 per cent. of the cost of a hall or a field, up to \$2,000. The object is to encourage community life in the rural sections and afford facilities for the people to get together for amusement improvement. Regulations govern the character of these community halls, which are to serve as assembly rooms, for entertainments, and, at the discretion of the minister of education, as libraries and reading rooms.

The government is anxious that the people of the rural municipalities shall take advantage of its proposals in this connection. No doubt these community halls would render very important service in making rural life more enjoyable, and serve as a check on the tendency of country people to drift to the cities. With community halls and athletic fields within easy reach, by automobile, of every part of the section, with telephones, electric light, rural mail delivery and other modern conveniences, the farmer will soon have nearly every advantage to be found in the city, and without the objectionable features of city life.—Petrolia Topic.

A BIG JOB AHEAD

With the passing of the liquor act forbidding the importation of intoxicating liquor into the province on Monday last let it be understood that the liquor traffic will still remain. The vote means that the same laws that were in force in 1919 will come again into effect when liquor was obtained from druggists and doctors on prescriptions. The "drys" have been successful, but they cannot step aside now and say "We can now rest from our labors." Today they are confronted with the very difficult task of assisting in having the liquor law enforced. The work will be strenuous and will call for personal sacrifices on the part of every prohibitionist. In 1919 the bootlegger did a thriving business throughout the province and every sincere person in Alberta today will hope and pray that with the passing of the act on Monday last the bootlegger has been totally eliminated. The enforcement of the act will fall upon the members of the police force of the province and in this work they will require the assistance of every prohibitionist who supported the measure.

That the task will be herculean is without question for during the year 1919 when we had such prohibition of inter-provincial traffic, the profits according to the attorney-general, on legal sale of liquor, were at least \$2,150,000, while he estimated that the profits made by bootleggers and those engaged in illegal operation of stills, amounted to \$3,500,000. If these were the profits the total sales must have been several times the figures mentioned.

With these statistics from the chief law officer of the province available, it cannot be said that the sources of supply were cut off or the bootleggers stamped out in 1919, and it will be seen on the face of it that real hard work confronts those who supported the measure on Monday last—that is if they continue to remain faithful to the cause they so ardently supported on October 25.

ACROSS CANADA IN 45 HOURS

The actual flying time by aviators in the recent trans-Canada flight from Halifax to Vancouver, a distance of 3,450 miles, was 45 hours, 20 minutes. The running time for the same journey by rail is 132 hours and 10 minutes, including stops of 22 hours in changing engines. Two hours of stoppage, or 15 minutes every 500 miles, would, with a complete ground organization, be sufficient recommendation for air communication is the opinion of the air board at Ottawa.

About 300,000 bushels of this year's crop has been shipped out of the Nanaimo district says the News. Threshing is all finished and the wheat is running from 15 to 40 bushels. E. C. Carr had 40 acres of summerfallow that went 40 bushels and his oats averaged 75.

U.F.A. READY FOR BIG DRIVE

Greenfield Confident that Alberta Organization will make Record Showing.

Herbert Greenfield, Westlock, Vice-President of U.F.A. and chairman of the U.F.A. organization committee, advises that everything is in readiness for the big drive during the first week in November.

Most of the preliminary work has been done and it is expected that on November 1st and November 2nd upwards of 3000 enthusiastic U.F.A. supporters will be in the field visiting their neighbors and soliciting for memberships in the association.

The organization work in both Manitoba and Saskatchewan has been progressing favorably and reports from "district captains" indicate that the morning of November 1st will see upwards of ten thousand active workers beginning their canvass in all the rural districts in the three provinces.

In this drive an endeavor will be made to have a representative of the farmers association visit every resident farmer between the City of Winnipeg and the Rocky Mountains. The head of every household will be asked to contribute the sum of \$6.00—no more no less. This amount will pay for a year's membership in the association, a year's subscription to the official organ and leave \$2.00 to be used by the central and district boards for organization purposes.

Associated with Mr. Greenfield on the Alberta Organization Committee are L. M. Goetz of R. D. Deer and Snow, and R. D. Nanton. All are members of Board of Directors of the U.F.A. The committee has fixed an objective of 50,000 U.F.A. members for the year 1920 and all are confident that this figure will be reached.

WANT GOVERNMENT CONTROL

British Columbia voted overwhelmingly in favor of government control of the sale of liquor on October 20, and the present act has been defeated in cities, towns, and villages, the majority in favor of government control totals approximately 15,000. Premier J. Oliver was very much surprised at the vote and at next session will repeal the present act and bring into effect the principle of government control.

The question on which the people were asked to express themselves on today were:

Which do you prefer:
1. The present prohibition act? or,
2. An act to provide for the government control and sale in sealed packages of spirituous and malted liquors?

The vote today will result, it is expected, in a generous policy of sale of liquor, not over the open bars, but in government shops. The present act was amended at the last session of the legislature to permit of the sale only of eight ounces of liquor from a druggist or government dispensary under a medical prescription. The act in its original form allowed the sale of any quantity on a doctor's prescription, and the government liquor stores in the various centres of population did a thriving business. Under the present act the illicit manufacture and sale of liquor by bootleggers thrived, and this fact, Moderationists say, was a determining factor in today's results.

U.F.A. NOVEMBER DRIVE

The days are gone when it could be said that farmers would never be able to see farther than their own individual barns and fields, and could never "hang together." That the members of the U.F.A. are thoroughly imbued with the spirit of co-operation and organization is shown by the way in which preparations for the big membership campaign are being carried out. A splendid spirit of self-sacrifice is being shown by many of the workers. It is expected that all canvassers will cover the half township allotted to them inside of two days, but some of the constituency organizers will be fully occupied from now till the drive is over. In some cases this involves leaving threshing work, but these men are able to see, beyond their own immediate needs, the problems of the farming community as a whole, and are unselfishly devoting themselves to the first step towards their solution.

For the Macleod constituency the organizers are Geo. S. Ferris, Nanton, and Geo. Cootes, Cayley. District Directors: N. C. Fraser, High River; D. C. McDougall, Pincher Station; R. C. Parker, De Winton; W. H. Shields, Macleod; O. E. Jones, Stavely; S. T. Marshall, Stavely; J. J. Strang, Claresholm, and Oren Shipley, Cardston.

BOX SOCIAL AT BRANT

On Thanksgiving Day a most successful box social was held in Brant hotel, given under the auspices of the Catholic Church. Mrs. J. Eversman suggested the idea of this entertainment and with some other ladies took much trouble in preparing it and attending to everything on Monday evening.

Mr. Lehwig allowed the ladies generously to have free use of his hall, dining room and kitchen, for which they wish to express most sincere thanks.

Miss H. Willett, Messrs. Donnelly and Butchart donated the music and it was of such an excellent character that they thought there was not enough money to pay for it.

Mr. Rebbe from Vulcan was the auctioneer. This gentleman has a glib tongue, lots of pep and humor. God and the goodwill of the people did the rest and did it well. The baskets sold high, the net proceeds being \$567. The Brant people have shown once more how generous and broad-minded they are by patronizing this entertainment, irrespective of creed or race. Let them be assured that they made no mistake. They got immediate results for they had a good time last Monday evening.

The entertainment was remarkable both by its lack of stiffness and the good manners of all present. They had that evening and reaped right away a crop of good feeling and will keep reaping for years and years. Good feeling is like a perennial plant, the usefulness and ornamental power of which few people realize.

No one will ever be sorry for having shown enthusiasm, and proved to be a good sport on the above occasion.

The foundation work of the new Catholic Church at Brant was commenced Wednesday of this week by Mr. Lafreniere. The building will be 20x40 frame structure with Sanctuary and Vestry 16x16.

ferred the post of commissioner of telephones for the government of Manitoba at a larger salary than he is now receiving from Edmonton, namely \$3,600.

The Pincher Creek hospital district turned down the hospital plan on the 16th instant and we are told the people now regret not being more enthusiastic in the support of same. Before the vote is taken here it is to be hoped that every ratepayer in the district will thoroughly understand the scheme, discuss it intelligently and by so doing they cannot very well do otherwise than support such a scheme. Particulars as to the date of voting here has not been given, but no doubt it will be taken some time in the month of November.

Don't Saddle Yourself

with either poor harness or inferior stable supplies. It's far cheaper to buy the best from us and get real value for your money.

Cheap Harness May be Dear at any price. This is very apt to be the case with harness bought by mail. The concern a hundred or more miles away cannot sell good harness any cheaper than any one else. So when they cut the price they cut the quality too. Buy here and see what you are getting before you pay for it.

The Days of the Thundering Herd

PROVINCIAL NEWS ITEMS

That famous racing horse "Man o' War" will be tendered a banquet at the Waldorf Hotel in the near future, and the chances are he will not make an "ass" of himself like some of the men.

Employees of the Canadian National Railways will not be permitted to enter provincial or dominion politics as candidates. The resolution may be irksome but at the same time it is quite justifiable.

Governor H. J. Allen, of Kansas, made the statement that the recent fall in wheat prices was entirely due to the direct action of wheat manipulators in Chicago. If such is the case then government control should be adopted.

The municipal hospital at Bassano is proving a Godsend to the people of that district, and the reports coming from there would indicate the greatest satisfaction with the institution by those who reside on the very outskirts of the hospital area.

The trans-Canada fliers have had many delays in their flight across Canada, caused by weather and engine troubles. In a continuous flight they could make the trip in three days.

The Norris government in Manitoba is being strengthened of late by the election of Mr. Ed. Brown at the Pas, and last week the minister of agriculture was elected by acclamation.

Ratepayers of Calgary will be asked to provide the sum of \$200,000 for 1921, for hospital improvements. It is a large amount but public health is of first importance and the money must be raised.

Last week was fire prevention week in Canada, when all citizens were asked to exercise particular care with regards to fire. We have no doubt but that there was a decided lessening of fire loss and it would be well if the same care would be given during the entire year, for Canada's fire loss every year is tremendous. In our town there was no loss recorded.

Have you ever observed how some men when approached for financial assistance for some real good cause and a cause they are morally bound to support, will squirm and twist, make the usual excuse about "hard times" and banks "tightening up," and probably the next day they will spend many dollars for a dinner party in the city and think nothing of the expenditure.

It has been disclosed by an investigation that United States marines killed over 3000 Haitians in four years. The investigation reveals that the indiscriminate killing was ordered by Major General Barnett, then commandant of the marine corps. The report has created a deep impression among American citizens who are shocked at the revelations. As for the Irish-Americans, the report will not trouble them for they are so intent on the Irish question that the Haitian disclosures are of a minor sort.

Captain W. White, chairman of the Board of Commerce, a man of considerable repute throughout the dominion, and one who is highly respected, says "Neither directly nor indirectly had the Board of Commerce any connection of any kind with the cabinet at Ottawa with regard to the recent sugar order." In view of Premier Meighen's stand we can quite believe it.

It is rather remarkable to read in some of the local papers that the entire blame of the action of the Board of Commerce in connection with their ruling on the sugar situation is laid entirely at the door of the Meighen government. There is absolutely no word of praise for Mr. Meighen's action in annulling the decision of the Board of Commerce, all of which illustrates that partisanship is not yet dead in the West.

Mr. W. C. McDougall received word from Allan Cameron, who had charge of the geological survey party composed of University students, who were exploring for data for the Imperial Oil Company in connection with the Great Slave Lake district and with whom the late J. Clare McDougall was engaged up to the time of the drowning accident, when he lost his life. No trace has been found of the bodies of the two young men, but the tent they slept in and a paddle of the canoe was found along the shores of the Great Slave Lake. It is hardly possible the bodies will be recovered as the water in the Great Slave is very cold and rarely gives up its dead.

CLOSING OUT

AUCTION SALE

As I am giving up farming and going to the States, the undermentioned will be offered for Sale at Public Auction at the south-west Quarter of Section 35-16-24, being two miles east and one mile south of Vulcan, on

Monday, November 1st, 1920

12 HEAD HORSES

1 brown mare, 7 years, 1400; 1 bay mare, 8 years, 1250; 1 brown mare, 7 years, 1450; 1 black mare, 9 years, 1300; 1 grey mare, 8 years, 1400; 1 bay horse, 9 years, 1250; 1 brown mare, 8 years, 1350; 1 black mare aged, 1250; 1 black mare, 3 years, 1 black gelding 3 years old; 1 brown mare, 3 years; 1 yearling horse colt.

CATTLE AND POULTRY

1 good milk cow, be fresh in early spring; 1 yearling heifer; 125 head of chickens; 6 Turkeys.

The Anglican Church came out strongly in favor of the referendum which was rather surprising to many, who still desire to get their beer and wine.

Several changes were recently made in the judiciary of the province. Judge E. P. McNeil, judge of the district court of the district of Macleod, was appointed Junior Judge of the district court of Calgary to replace Judge Winter, promoted. Mr. Justice McNeil was also appointed a local judge in the supreme court in Alberta.

"Chu Chin Chow," which is probably the biggest theatrical attraction

of all times, will be presented in the Grand Theatre, Calgary during the first week in November. This is a gigantic and gorgeous musical extravaganza in 14 scenes with eighteen musical numbers, produced on a scale of colossal grandeur, employing the services of over 300 people. The engagement of "Chu Chin Chow" is the most notable event in the history of the Grand Theatre, Calgary, and the management is deserving of the heartiest support of the people of the province, which they will no doubt receive when the play is presented.

The prompt action of the government in overruling the action of the Board of Commerce is very commendable and it was to be expected that some such action would be taken. The statement made by the sugar refiners about the great losses they will suffer if American sugar is allowed to be "dumped" in Canada, is no doubt true, but in view of the high prices and profits they have received during the past few years we fail to see where they have any claim on the government for protection. That same condition will have to be faced in a great variety of other occupations at a time of changing prices, and if protection is given the sugar refiners, then it must in all fairness be given in all other cases which would lead to endless trouble.

BLACKIE NEWS

The rain which fell on Monday did much good to the dry earth and made plowing a little easier.

Tom Callahan took in the boxing bout at Calgary recently and he says it was one of the finest bouts he has seen for some time.

Mrs. Burns and mother, Mrs. McGlone, left Blackie last week for Boston, where they will reside. Mr. Burns will follow later.

Mr. Fay Stockhouse writes stating that he is shortly leaving the C.P.R. service at Pinet, Sask., for Gull Lake, Sask., where he will act as assistant C.P.R. agent.

Victor Ryberg, who was shot recently by Constable Hale, of the A.P.P.P., was a former resident of the Blackie district and was only about twenty years of age. He was in the services of an American bootlegging outfit.

The suggestion is offered by several people in the Dinton district that if the citizens of Blackie will organize a committee for the purpose of erecting a skating and curling rink at Blackie they will get behind the project with cash and influence. There are several good curlers around Blackie who are anxious to get into the game—once more and anything they can do to help along the scheme will be done with enthusiasm. Who will start the ball rolling in Blackie?

Mr. Fred Rockafellow, Sr., had an interesting visit from an old friend from Shenandoah, Iowa, on Saturday last in the person of Mr. C. W. Parsons, a railway engineer on the C. B. O. Q. Railway. Mr. Parsons has been 26 years with the same company and looks good for another 26 years of service. Mr. Parsons owns a quarter section of land in the Longview district and he was here looking after his crop interests which is being handled by Mr. J. C. Herriman.

Grat Short happened to drop into the Blackie Trading store in Saturday, and while making his purchases, Art O'Neil, the senior member of the firm applied for a job with him, when the following conversation was overheard:

Short—"Sure thing! Come on out, I have a suitable job for a small rooster like you."

O'Neil—"Right you are, what will you pay me?"

Short—"Whatever you are worth."

O'Neil—"What work will you put me at?"

Short—"First of all, I'll give you some feather pants and put you setting on a dozen ducks eggs that I want hatched out. I think that's about all you can cover."

Art was somewhat staggered for a moment but came back as follows:

"By the way, do you know why Short's hair is so bleached looking. Probably you don't. Well, here it is. He is so darned tall that the sun shines on his head two hours before it strikes the earth."

STRUCK OIL IN NORTH

If the Fort Norman area becomes the biggest oil producing field in the world, traffic along the A. & G. W. should pick up a bit and some of these days the road may pay, and then Dr. Blow will have to cremate all that is left of a famous speech which has done good service for the last ten years.

WHERE AID IS NEEDED

An increase of twenty per cent. will be made to the salaries to the superannuated ministers of the Methodist church, so the superannuation board of the Methodist church in Canada decided at a meeting in Toronto recently.

THE YELLOW PERIL

Our diplomats have failed us. They've failed the faith to keep. The Yellow Peril's nailed us. While they were fast asleep. The land that faced the Hun power. Will ne'er its courage lose; Arise and swat the sunflower; It's wicked juice is booze.

BRING RAIN FROM SKIES

An aerial irrigation company is being formed by several aviators at Port Arthur. Their scheme is to cause rain by spraying liquid air from an aeroplane thus causing the moisture in the atmosphere to condense. Mr. Cole claims the idea will supply rain for agricultural districts where nature has failed and also serve to quench forest fires.

RETURNED FROM STRIKE DUTY

Constable A. W. Holtum, A.P.P., who went to Drumheller at the first of the month on strike duty, returned to High River yesterday and he reports that the O.B.U. is now a thing of the past so far as the U.F.M.A. is concerned and at present all the mines are working full blast. The paid agitators instrumental in causing the strike at the outset were located and they were asked to leave the locality, and the removal of these undesirables finally cleared the situation and all the miners returned to their work as they were well satisfied with conditions, but were compelled to strike by the paid O.B.U. organizers as they feared reprisals. Business conditions are very brisk in Drumheller, and several former High River residents who are located there are prospering and are well pleased with the place.

LIQUOR VENDORS IN N.B.

At a cabinet meeting held recently the New Brunswick government considered the appointment of a commission to handle liquor supplies in that province. It is understood that if appointed, the commission will control the wholesale distribution of liquor within the province, replacing the present licensed wholesalers.

It is believed that retail distribution for medical and sacramental purposes only will be carried on through licensed retail vendors as at present, but the retailers will be required to secure all their supplies through the commission. The commission will be solely for the purpose of buying and selling supplies and will have nothing to do with the enforcement of the prohibition law.

CANNOT COME TO MACLEOD

In reply to a request from H. M. Shaw, M.P., to Premier Meighen to visit Macleod riding during his coming western trip, the premier telegraphs his regrets that the time at his disposal will not permit him to visit us this time, but he promises to visit this riding at some future date. —Nanton News.

Opera House, Nov. 11th.

PROVINCIAL NEWS ITEMS

That famous racing horse "Man o' War" will be tendered a banquet at the Waldorf Hotel in the near future, and the chances are he will not make an "ass" of himself like some of the men.

Employees of the Canadian National Railways will not be permitted to enter provincial or dominion politics as candidates. The resolution may be irksome but at the same time it is quite justifiable.

Governor H. J. Allen, of Kansas, made the statement that the recent fall in wheat prices was entirely due to the direct action of wheat manipulators in Chicago. If such is the case then government control should be adopted.

Upon reading a magazine that there are ninety public holidays in Russia one boy declared he would be delighted to go there to live.

Hon. McKenzie King and party had a warm reception at Lethbridge on October 30, the home of Billy Buchanan, the popular member of Lethbridge. The Liberal leader had an informal talk with the labor leaders and addressed the high school students and went into the irrigation problems affecting the people of South Alberta.

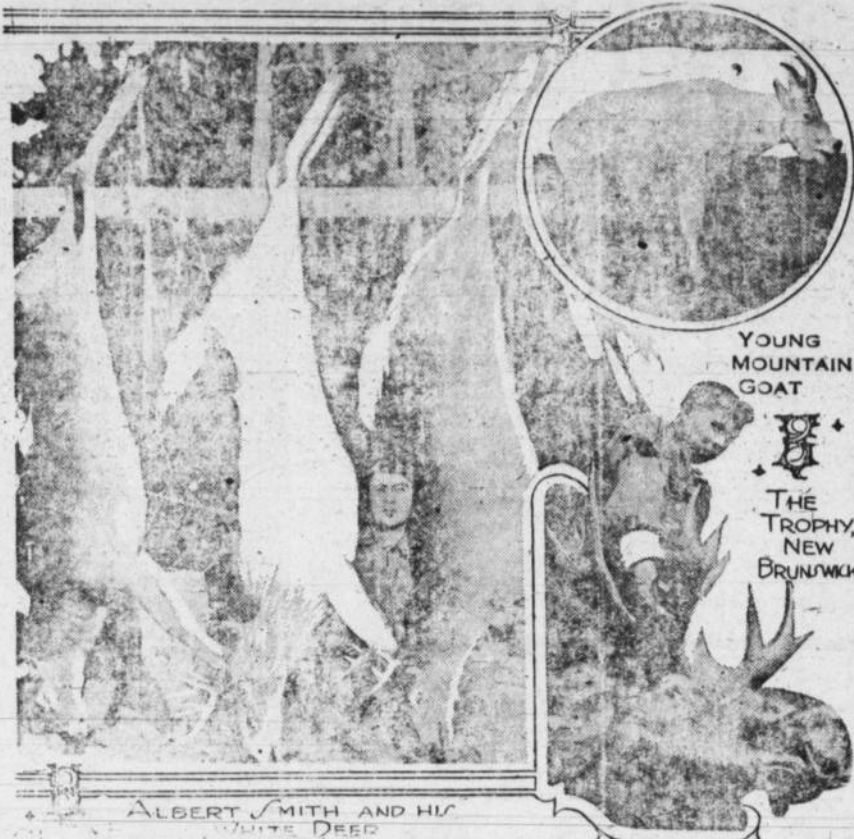

As a result of attending mass meetings during working hours, 5100 workmen in the Ford Motor works at Cork, Ireland, were dismissed. They were all Sien Feiners.

The spring being very late, Mr. C. J. Tulbot, as he describes it, "muckers in" about 60 acres of stubble to wheat and from this field he got 1380 bushels of No. 1 Northern wheat, or an average of 23 bushels per acre. His oats on 80 acres averaged 35. Last June the crop condition looked hopeless to him, but as the harvest season approached conditions improved to such an extent that he was astonished with the yield produced.

A farmer who always keeps close tab in the grain situation the world over, was heard to remark that prices would surely recover as the world's needs are over those of last year and the total requirements of wheat are estimated at the same as last year. Such being the case he expects \$2.00 wheat to prevail early in March.

The trans-Canada fliers have had many delays in their flight across Canada, caused by weather and engine troubles. In a continuous flight they could make the trip in three days.

Canada Still the Big Game Hunter's Paradise

Although thousands of moose, deer, bear and caribou have been killed in Canada during the past few years, big game is still plentiful throughout the Dominion. Many fine moose heads are secured every fall in Nova Scotia and New Brunswick by hunters from the United States, but guides, game wardens and Hudson's Bay Company trappers estimate that the natural increase exceeds the kill.

Last season Sam Smith and his son Albert led a party of sixty Indians hunters from Port Wayne to the big game section of Maine along the Canadian Pacific. Each member of the party was promptly got his allotment of game allowed by law that the hunters returned home ten days earlier than they intended. Albert Smith had the fortune to shoot a white deer, a fine buck with well grown antlers.

In Canada the range of sport is wide and varied. There are moose, caribou, deer and black bear in Ontario, Quebec, New Brunswick and Nova Scotia, and in the Canadian Rockies there are mountain sheep and goats, grizzly, brown and black bear, moose, caribou, deer, wolverines and mountain lions.

The bull moose of Nova Scotia, New Brunswick and Quebec are noted for their size, and a wounded moose charging the hunter will give him all the thrills he wants. In the Canadian Rockies "Old Silver Tip," the solitary grizzly, charges down hill like an avalanche, but the expert hunter knows how to stop him before he gets too near. Two of the prized heads to be procured in the Canadian Rockies are those of the mountain sheep and mountain goat. Both are wary and wonderful climbers as well, but the hunter with

good legs and good wind can get a shot at them.

A favorite sport in the Canadian Pacific Rockies, and particularly in Banff and vicinity, is hunting big game with the camera—in which no hardships are involved, as hunting with rifles is forbidden in the National Park. Big game animals roam in groups through the woods and along the trails and roads, and often like to stand on some ledge of rock or prominent place to observe passers-by.

In the zoological garden and in the enclosed park at Banff there are many varieties of wild animals available for photographers. Some of the most treasured mementoes of the Canadian Pacific Rockies brought away by visitors are snapshots of big game animals.

The curlers of Vulcan have organized for 1920-21.

The coal miners of Great Britain took the fatal step on Monday when they decided to strike. In view of the very generous stand taken by Premier Lloyd George in connection

with the strike, there is no question but that the people of Britain will fight the strikers to a man.

A memorial hall is being erected in the town of Innisfail, the size of which will be 40x60 feet.

The Masons of Nanton will hold an "At Home" on Thursday, November 4.

The sum of \$60 was netted by the Okotoks hockey club at their dance held two weeks ago.

FORGING

FOR NEAR A SCORE OF YEARS THE U.F.A. HAS BEEN FORGING AHEAD.

SOME MISTAKES HAVE BEEN MADE BUT THESE HAVE BEEN ERRORS IN METHOD ONLY—ALWAYS THE OBJECTIVE, CLEAR CUT, WELL-DEFINED HAS BEEN IN VIEW.

URGED ALWAYS—BY A NEED ONLY TOO EVIDENT, AND BUILDING ORGANIZED STRENGTH ON ORGANIZED STRENGTH—STEADY, WELL ORDERED PROGRESS HAS BEEN MADE.

LOOKING ALWAYS TO THE FUTURE—TO THE BUILDING OF A TRUE DEMOCRACY WHEREIN THE REAL WORKER WILL RECEIVE ADEQUATE RECOMPENSE FOR HIS TOIL;—CONSISTENTLY, WITHOUT FALTERING, THE CHAIN HAS BEEN FORGED LINK BY LINK.

THE ORGANIZATION HAS NOW REACHED A POINT WHERE ITS VERY STRENGTH ATTRACTS THE LOYALTY OF MANY MEN, BUT ITS TASK CANNOT BE COMPLETED UNTIL IT HAS THE ACTIVE SUPPORT OF THE RURAL POPULATION 100% STRONG.

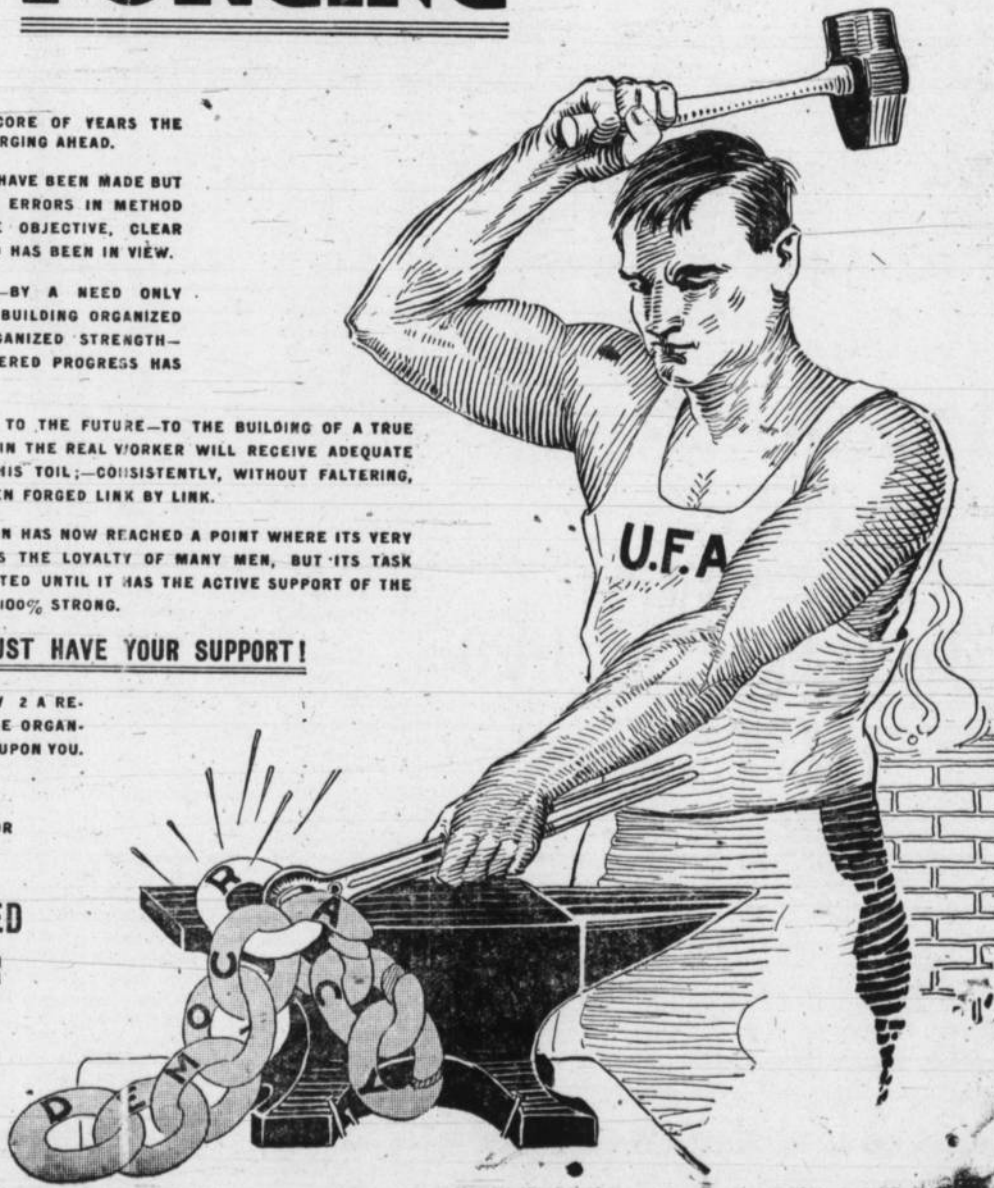

IT MUST HAVE YOUR SUPPORT!

ON NOV. 1 OR NOV. 2 A REPRESENTATIVE OF THE ORGANIZATION WILL CALL UPON YOU.

WELCOME HIM.

HE WILL ASK FOR A CONTRIBUTION.

BOOTLEGGER KILLED

The dead body of a man found over the U.S. border near Manyberries has been identified as that of Victor Ryberg, formerly of the Blackie district, who was shot and killed by the carbine discharged by Constable Hale, of the A.P.P., on Sunday last. The shooting is the sequel to the story of the escape of two prisoners, of whom the dead man was one, the other being Michael Alchenique, who escaped from the custody of the police while being conducted to Lethbridge on September 29 from Etzikom.

These two men were arrested at Nolan's garage, Etzikom, with a quantity of liquor, in a car. The car with the liquor, in charge of Constable Streetfield, was going ahead, followed by a car in which were the two prisoners in charge of Constable Rowe. The front car stalled in loose sand at Purple Springs, and the two prisoners were released from their handcuffs to give a hand in getting it out. This accomplished, they were making their way back to the rear car, the engine of which was still running, when they knocked the constable down and got away with the car. At the inquest held in Lethbridge Detective Crerar gave a graphic description of the fight that took place in the car between him and the three bootleggers, including the deceased, the other two being a man named Thompson, who was driving the car, and Mitch Alchenique. The car was going at a rate of speed the detective had never experienced before. In his own words "it was zig-zagging like a snake" and all the time what might have been a mortal combat, so far as Crerar was concerned, with the three men in the car on him, and a loaded carbine with its muzzle placed on the bridge of his nose, causing an abrasion thereon, but luckily with the cartridge not exploding was going on. Later it developed into a fight for the carbine, the property of the detective, with the men struggling in the car which at one time was left to its own guidance, speeding at a terrific rate, with the man at the wheel leaving it and leaning over to pummel the detective. So it went on, with the car going towards the Q ranch when, in the distance was seen Constable Hale. Seeing what was going on in the car, and crouching with his 22, taking aim to end the deadly combat with his comrade at the mercy of three desperate men he fired. The bullet was effectual, with the dead man falling on the knees of Crerar as he was attempting to pull the trigger of the carbine a second time. The shock of the bullet sent Ryberg down and the carbine was seized by another and in the fight for its possession it was whirled out of the car and fell on the prairie.

TAX ARREARS BEING PAID

The treasury of the province is being swelled this fall by the receipts of tax arrears following the application of the tax arrears which requires payment of all taxes in the province up to the end of last year, failing which the lands or properties will be sold for taxes.

Hon. C. R. Mitchell, provincial treasurer, said Thursday morning that the effect of the advertising all land in arrears for sale during the next two months has been payment of such arrears in a growing volume. Although considerable, sub-divided properties outside the cities and towns are apparently to be allowed to go to the auction block for arrears.

According to returns as published Mr. Mitchell says nearly all outstanding accounts against farm lands are being paid to avoid the sale and the total collection of the province in this manner is already large. The provincial treasurer refers to the fact that many of these arrears have been standing for several years and the deficits which have had to be met by the government in annual accounting were the result of the non-payment of taxes due. This year the situation promises to be greatly improved both as regards payment of current taxes and the collection of arrears.

FORT NORMAN GUSHER

Private news has been received at Edmonton that a well has been brought in south of Fort Norman which is flowing a barrel a minute, which would make it a 1,400-barrel well. The gusher sent the oil 15 feet over the derrick, when it came in.

The first oil struck was at a distance of from 85 to 88 feet, which in addition to the oil proper gas and water were also met with.

From 260 to 272 feet oil and gas were encountered, without water, and oil at a depth of from 320 to 400 feet, the oil was in preponderance, until the 800-foot level was reached, when the big flow broke through.

The Crown Prince of Denmark was a visitor in Stettler recently in a shooting expedition.

WESTERN PROVINCES DRY

in the Morning Albertan on October 26, the province of Alberta gave a majority of over 10,000 against the importation of liquor into the province. The vote was smaller than expected by the prohibition workers and is about 10,000 less than the majority given on the straight prohibition vote in 1916. Following is the summary which will no doubt be changed as final returns come in:

	Wet	Dry
Battle River	1,085	1,808
Bow River	2,515	3,458
East Edmonton	1,599	2,025
West Edmonton	2,252	2,163
Lethbridge	2,053	3,286
Medicine Hat	1,010	1,960
Macleod	2,203	2,309
Red Deer	1,406	3,879
Strathcona	990	1,697
Victoria	899	1,024
East Calgary	3,043	3,139
West Calgary	3,455	4,525

22,510- 31,273

Majority for the plebiscite, 8,763

LAWYER AND DETECTIVE FIGHT

Extraordinary excitement was occasioned in the court room at Blairmore, where the trial of Delaney, a detective of the liquor department of the province, was being proceeded with. C. F. Harris, counsel for Claridge, the clerk of the Cosmopolitan hotel at Blairmore, at whom it was alleged, as reported, the detective drew a gun, implied that the detective was a "stool pigeon," whereupon Delaney's wrath was aroused and he proceeded to take it out of counsel with his fists. In the melee that ensued, J. Johnson, mayor of Coleman, rushed to the aid of Harris, and a regular free for all took place. The court officials joined in to part the combatants, and eventually order was restored.

SMALL HOSPITAL FOR OKOTOKS

H. Bannister was in Calgary this week attending a meeting of a committee of the Calgary District Hospital Board. The committee have drafted out a scheme for the district. It provides for no hospital building in Calgary but for small hospitals in the surrounding towns including a five bed one at Okotoks.—Okotoks Review.
